

Patamsetti Radhi Sri Bhavya

bhavya.pro30@gmail.com | +91 8978775844 | Rajahmundry, AP

ABOUT ME

My goal is to earn a bachelor's degree in computer science with a focus on artificial intelligence and data science. I am a person who searches for simple solutions to the issues I come across every day. I've been learning at college how to change myself into the kind of person today's industry needs. I have developed strong interpersonal skills in addition to the technical needs. As a technology enthusiast who has been accustomed to how it has improved lives and transformed society, I avidly await opportunities that will allow me to use technology to serve a particular cause.

EDUCATION

Bachelors in -

Artificial Intelligence and Data Science (CSE)

Shri Vishnu Engineering College For Women

2020 - 2024

Intermediate in -

Sri Chaitanya Junior College

2018 - 2020

LINKS

SKILLS

C Language

Python

Data Science

Machine Learning

Full Stack Web Developer

Communication Skills and Leadership

Problem Solving and Debugging

LANGUAGES

English (Professional Working proficiency)

Telugu (Elementary proficiency)

Hindi (Professional Working proficiency)

CERTIFICATIONS

- Received certificates regarding Web Development, Machine Learning, Microsoft(Data Engineer) AWS cloud foundations, DataBase Foundations - Oracle, Python, C Language, Drone Technology, UI/UX Bootcamp and gained knowledge.

EXPERIENCE AND INTERNSHIPS

Study Owl - Fullstack Web Development

2021

- Full stack application project with Node JS Express JS.
- Worked with skill-set of HTML, CSS, JavaScript, Node, Express and MongoDB.

The Spark Foundation - Web Development

2022

- Frontend Web Developer responsible for end-to-end frontend web development by creating a good looking user-interface.
- Built an payment gateway integration for donations in a website.

Bolt Iot - Frontend Web Development

2022

- Built an Inventrom site to showcase awards for a particular site.
- Worked with skillset of HTML, CSS, JavaScript, JQuery and ReactJs.

PERSONAL PROJECTS

Movie Finder

- Created a telegram chatbot which displays all the content of a movie using api key. It fetches the movie details like hero, heroin, director, producer, rating..

Data Science

- Prediction using Supervised ML - By taking a dataset and predicted the accuracy of student percentage according to the number of hours studied.
- Prediction using Decision Tree Algorithm - Created a decision tree and visualized it graphically.
- EDA on SampleStore dataset - Explored the data and visualized it and performed Exploratory Data Analysis on the dataset.

Machine Learning

- California House Price Prediction - The project aims at building a model of housing prices to predict median house values in California. Used Regression to predict the output.(Linear Regression, Decision tree Regression, Random Forest Regression).

ACTIVITIES

- Manages icmeet.in website
- Workshop on Drone technology at NIT-AP
- Co-ordinator at Tekne-Club
- Teaching assistant as a FullStack Web Developer at vedic.dev
- .
